AUTHENTICATION WITH VISUAL PASSWORD
AT ELECTRIC DOOR LOCK ENTRANCE
User Manual

When updating the password, the value of the relevant gestures should be written separated by a comma. For example, if you want to set a password in the form of eyebrow raising, one, two and smile, respectively, you should update it to 9,1,2,7.

	7	Gülümseme
	8	Ağız açma (şaşırma)
	9	Kaş Kaldırma

In the project, the password to be created by the user was provided to the door lock by capturing a series of facial expressions from the camera along with the values corresponding to the facial expressions we described in the user manual.

This project was prepared by Mustafa Can Seçgin, Reşat Çayhan and Velican Doğrusöz under the leadership of Assoc. Dr. Hasan Serhan Yavuz and conducted by Alperen Şenyiğit.
